

STANFORD PLACE,
FARINGDON,
BERKS.

Sept 7th 1934

Dear Mr Shorey.

I regret I shall be
away from home on Sept. 11th
& regret my apologies may
be made to the Chairman of
P.D.C. at the Council meeting
with regard to the proposed Abstract
Symposium to be held by the Ministry
of Health on towers to be erected

at Farmington Folly, I should be
happy to give any assistance in
my power against the scheme,
observing that it would spoil the
conveniences of the countryside &
the views from my front drive,
especially in the evening, when
the setting sun shows up every
detail of the trunks of the trees
as viewed from my house, & any
tower or obstruction would spoil
the symmetry & beauty of the former
chump of fir trees.

Yours faithfully,
J. M. B. Moore
Admiral
